## PROJECTS

### E-commerce project :

I built a single page application , E-commerce project with sign-in/sign-up using React js and React Router Dom and Redux with (redux-saga)

Products come from Firebase Database

Firebase is handling authentication The design is fully Responsive

### Qamous-Template :

Template for listing places for example:

Restaurants , famous locations , banks .....

using React js , Redux , jquery

There is more projects in my portfolio website check it out:
